

**KENWORTH  
TRUCK CENTRES**

# MOBILE SERVICE TRUCK

**Kenworth Truck Centres** in Concord is proud to announce that we are now providing **Mobile Repair Services.**

With our new mobile service truck there are almost no repairs that we can't handle, on the road or on site. We've designed a custom body for our Kenworth T300 to allow strategic placement of tools and parts for fast, easy access. This state-of-the-art vehicle will always be operated by a fully licenced technician.

In addition to the mechanical repair capabilities, we also have wireless internet access to diagnose any PACCAR MX, Cummins or CAT engine electronic faults as well as any Eaton or Allison transmission issues. With an abundance of parts on board we can get you back up and running quickly, often without the need for a costly second call to finish up a repair. The KTC Mobile Repair Service Truck can handle anything from electronics and brakes to air systems and engines, on site or on the road.

Contact us today to schedule an appointment or for an emergency breakdown, we'll get you back up and running as quickly as possible,

Coverage Area:                      **North:** Hwy 9                      **South:** Hamilton, ON  
   **East:** Oshawa, ON                      **West:** Milton, ON
